Specialists in  
warehouse  
management  
solutions

A low-angle, perspective shot of a worker in a red cap and high-visibility vest operating a yellow and black forklift in a large warehouse. The forklift is positioned on a wooden pallet, and the worker is looking down at it. The warehouse is filled with high industrial shelving units (pallet racks) stacked with numerous pallets of goods, some wrapped in clear plastic. The ceiling is high with visible structural beams and bright overhead lights. The overall scene conveys a busy, organized industrial environment.

*"Snapfulfil's No Capex model was extremely attractive and has allowed us to implement **a best of breed WMS** quickly, **without headaches or heavy upfront investment.**"*

**Huhtamaki**

# Is this you?

- ▶ Is your warehouse struggling to keep up with the demands of your business and customers?
- ▶ Have your trusty old systems and processes started letting you down?
- ▶ Are you throwing people at problems in your warehouse?
- ▶ Are you finding an integrated ERP WMS solution falling short of your needs?

If so, then Snapfulfil Pro could be the solution.

## What is Snapfulfil Pro?

Snapfulfil Pro is a multi-award winning warehouse management system (WMS) which was developed to level the playing field for companies with big ambitions but without the budget to match.

Unlike the basic bolt-on warehouse management modules offered by many ERP and finance systems, Snapfulfil Pro is a best of breed WMS with all the functionality and configurability to provide a perfect fit for your specific requirements.

And, unlike traditional Tier 1 WMS providers, Snapfulfil Pro won't break the bank.

Snapfulfil Pro is brought to you by Synergy Logistics, a specialist software company which, for the last 40 years, has focused solely on the design and delivery of innovative warehouse management solutions.

# Benefits

Snapfulfil Pro customers enjoy benefits including:

- ▶ Optimised picking routes for shortest travel distances
- ▶ System-directed put-away for improved space utilisation and optimised stock location
- ▶ Automatic prioritisation and allocation of tasks to efficiently meet operational changes in real time
- ▶ Automatic replenishment to ensure the products are in the right place when needed
- ▶ Easy reporting on inventory position and operational performance for enhanced decision making
- ▶ Simple courier labelling without the need for manual data entry
- ▶ Real-time communication with operators throughout the warehouse
- ▶ Reconciliation of receipts vs purchase orders for effective financial management
- ▶ Simple reporting of operator performance for management and training
- ▶ Improved visibility, auditability and traceability of every movement – stock and people
- ▶ Multi-owner options for multi-channel and third party logistics operations
- ▶ Office hours telephone/email/web support included as standard and provided by our own dedicated team (out of hours options also available)
- ▶ Rapid disaster recovery built in as standard
- ▶ Scalable solution for 5-500+ users
- ▶ Simple upgrade path to Snapfulfil Enterprise

# Features

Key features of Snapfulfil Pro include:

- ▶ RF-directed put-away
- ▶ Multiple picking methodologies – wave, multi-zone, pick and pass, etc.
- ▶ Task interleaving based on priority, permissions and proximity
- ▶ Demand and rule-based replenishment
- ▶ Comprehensive tracking capabilities for serial number, country of origin, expiration and production date control and batch code traceability
- ▶ RF-directed, real time functions with on-line operator communications
- ▶ Built-in integration to most major parcel carriers
- ▶ Employee performance monitoring and reporting – orders/lines per day, weekly/monthly KPIs
- ▶ Digital dashboard for business intelligence and management reporting
- ▶ Comprehensive integration layer - from flat file to web service
- ▶ Premium hosting in high security data centres in UK and US

*“Snapfulfil **revolutionised our fulfilment operation** almost overnight – we reduced pick-error orders by 78 percent and estimate annual cost savings in excess of \$1 million.”*

**Jamberry Nails**

# Payment & deployment options

Following the pioneering launch of our Cloud WMS over eight years ago, we are now proud to offer that same proven software, but with a range of choices to suit all budgets and IT expertise.

- ▶ Like the idea of a No Capex, Software as a Service (SaaS) solution, complete with RF/barcode scanning equipment?
- ▶ Prefer a perpetual licence but need a professionally hosted, Cloud WMS with built-in disaster recovery and database administration?
- ▶ Looking for a hosted solution with the freedom to purchase your own infrastructure and hardware?
- ▶ Want a traditional licence and software you can install on your own servers?

Whatever works for you, Snapfulfil Pro can help.

## Software as a Service

Our unique Software as a Service model offers everything you need to get up and running with Snapfulfil Pro with **no upfront costs**.

Our fully inclusive, managed service includes solution design, hardware, infrastructure, training, implementation, support, maintenance and upgrades, all for an affordable monthly subscription based on the number of users.

And, with **nothing to pay until you go live** with Snapfulfil Pro, the day you start paying is the day you start saving!

# Our approach

While the Snapfulfil WMS is the centrepiece of our service offering, we pride ourselves on properly understanding and solving our customers' problems, not just selling software.

Our proven project and implementation methodologies ensure that Snapfulfil Pro is configured precisely to meet your unique requirements and is delivered rapidly, with minimal disruption to your operation.

Once you're up and running, our super-responsive, in-house support team are always on hand to answer questions and resolve any issues.

Our talented developers are continually striving to keep Snapfulfil at the cutting edge of modern WMS technology.

Throughout our organisation, our loyal and professional people have unrivalled expertise and work hard together to earn your business every day.

*"Our IT guys were impressed with the **straightforward integration** with our ERP and we were satisfied that for our requirements, there was **nothing that Snapfulfil couldn't do.**"*
